### SHERRY WINE BITTERS!

The celebrated New England remedy for Habitual Constipation, Jaundice, Fever and Ague, General Debility, and all diseases arising from a disordered Stomach, Liver or Bowels.

They are used and recommended by the leading Physicians of the Country, and all who use them pronounce them valuable.

Dr. JAMES L. LEMPERE writes from Navarre, Stark Co., O.: "The Bitters are praised by those offering them in the most glowing terms, and I am convinced that they will become a household name."

E. S. DAVIS, a student at Williamsport, O., says: "They give satisfaction. I use them myself, having taken cold, become prostrated and lost my appetite. It relieved me, and I can recommend it with great assurance of its merits."

Dr. WM. M. KERR, of Rogersville, Ind., writes us that they are the most valuable medicine offered. He has recommended them with great success and with them made several cures of palpitation of the heart and general debility.

THOMAS STANFORD, Esq., Blountville, Henry Co., Ind., writes us a long letter, under date of May 4, 1860. He was much relieved, having been afflicted for three years with great nervous debility, palpitation of the heart of the most severe and prostrating character, "after using a few bottles I was completely restored, and am now in robust health."

C. W. HOFFMAN says he was afflicted with rheumatism for twenty years in all its various forms, and at the date of this letter he has been two years well; the Bitters effecting a cure, when several Physicians attending him could do nothing. He says: "For rheumatism, dyspepsia, liver complaint, kidney affection or dropsy, it is a specific certain remedy."

J. W. HULL writes from Delphos, Allen Co., Ohio, (a section where fever and ague prevail) that he has carefully recommended them of decided merit in all cases of Fever and Ague, Dyspepsia, and General Debility.

D. K. GALLAGHER, M. D. writes from Van Wert Co., "I have recommended the Sherry Wine Bitters to the most delicate persons, and all who require a stimulating medicine."

### THE BALD AND GRAY!

Many, since the great discovery of Prof. Wood, have attempted not only to imitate his restorative, but profess to have discovered something that would produce results identical; but they have all failed, and gone being carried away by the wonderful results of Prof. Wood's preparation, and have been forced to leave the field to its resistless sway. Read the following:

Bath, Maine, April 18th, 1860.

Prof. O. J. Wood & Co. Gent: The letter I wrote you in 1859, concerning your valuable hair restorative, and which you have published in this vicinity and elsewhere, has given rise to numerous inquiries touching the facts in the case. The inquiries, first, ask a fact of my habitation and name, as stated in the communication; second, is it true of all the hair contained; third, does my hair still continue to be in good order and of natural color? To all I can and will answer invariably yes. My hair is even better than in any stage of my life for forty years past, more soft, thick and lustrous colored; the same is true of my whiskers, and the only cause why it is not generally true is that the substance is washed out by frequent addition of the face, when it came were used by wiping the face, in close connection with the whiskers, the same result will follow as the hair. I have been in the receipt of a great number of orders from all parts of New England, asking me if my hair still continues to be good; as there is so much fraud in the manufacture and sale of various compounds as well as this, it has not been lately imitated and been used, not only without any good, but to the injury of my hair. I have not used any of your Restorative of any account for some time, and yet my hair is as good as ever, and hundreds have exclaimed "It is a miracle, as I am now 61 years old, and not a gray hair in my head or on my face; and to prove this fact, I send you a lock of my hair, taken off the past week. I received your favor of two quart bottles last summer for which I am very grateful. I gave it to my hair, and the result is as you see. I can without any hesitation recommend it to all who are afflicted with baldness and want to restore their hair to its natural color and texture. I will ask as a favor, that you send me a box by which I can discover from the Restorative, if it is the same as the one I have used. I am a party agent for your Restorative, and I believe where good effects do not follow the failure is caused by the impure article which carries the name of the good Restorative. I have used your Restorative for some time, and I feel that I can confidently recommend it to all who are afflicted with baldness and want to restore their hair to its natural color and texture. I remain, dear Sir, yours,

Prof. O. J. Wood: Dear Sir—I would certainly be doing you a great injustice not to make known to the world, the wonderful, as well as the unexpected result I have experienced from the use of your hair restorative. After using every kind of Restorative, without success, and finding my head nearly bald, I was finally induced to try a bottle of your hair restorative, and the result is as you see. I can without any hesitation recommend it to all who are afflicted with baldness and want to restore their hair to its natural color and texture.
